MENDOCINO MAKES GOOD AT EXPOSITION

MANAGER CLELAND TELLS OF CREDITABLE DISPLAY OF COUNTY PRODUCTS—GREAT VARIETY

T. M. Cleland, manager of the Mendocino county booth at the Panama-Pacific International Exposition, was a mid week visitor to the county seat, coming for a day on private business, and reports great interest manifested in the display of county products, as well as general approval of the exhibits by county visitors. He paused from the more agreeable enjoyment of shaking hands with his numerous friends to accord an interview to the Republican Press representative. It would require a complete issue of the paper to give all the news of the county display at the World's Fair, the many complimentary comments made by Eastern visitors and the generous approval of home people who know just what can be shown from old Mendocino but a few points from a hasty interview will prove interesting reading.

First and foremost in the attention it attracts from the tourist from afar is our fine display of wines, which is fairly representative. There are apples in great profusion from the Coast section and Anderson Valley has the finest collection. The Bellfleur apples are of the finest color and nicest size to be had. Will Duncan sent in a creditable display from the Barker ranch near Hopland.

There are on exhibit from different sections of the county many splendid displays of vegetables which attract flattering notice from the middle western visitor and among the exhibitors who have shown commendable enterprise may be included: I. Holtz, whose ranch is on the Vichy Springs road; E. H. Whiting, from his ranch on Russian River, and many others. There are also fine displays of dried fruits, including dried apples, and these may be included in the permanent exhibit. A fine lot of vegetables was sent in by Mr. Tuttle from Covelo. There is corn on the stalk from Mr. Emerson of Ukiah Valley, and from Mr. Black of Laytonville.

Then a mammoth watermelon weighing 63 pounds, a Shaker Blue, grown on the Clark ranch near Laytonville at an elevation of 1,800 feet, comes in for admiring comment. From the same ranch comes a fine display of sweet potatoes. The Coast also excels in a potato display secured through the energy of Commissioner H. F. Milliken.

In a mineral way Mendocino county holds its own with other parts of the State and the manganese mine in Redwood Valley presents a fine display of its product which was obtained through the efforts of Thomas Taylor and W. P. Thomas.

The booths of Mendocino, Sonoma and Humboldt counties are enclosed in a handsome facade of redwood, which attracts instant attention from the Eastern visitor, who asks about the curly redwood and birdseye. There is a great deal of inquiry in regard to redwood shingles and timber. There is a fine piece of burhl from the Union Lumber Co. at Foft Bragg.

In wild life Mendocino has made an excellent display—something different from everything else in the California building. There are deer, bear, coons and panther, all of which invite questions from hunters from all over the world. The work of the Commissioners is commended as productive of the best results, especially L. E. Crawford has been untiring in his efforts to gather up exhibits and forward them to the management; he has kept his various dispays in good shape. Just a passing mention to McCauley Brothers of Willits, who have sent in some of the largest apples, one of which was sent to West Virginia by a visitor who declared that he could not make the home folks believe his yarn unless he could produce the goods, so he was given one to show as a sample of the Mendocino product.

Commissioner Crawford on two occasions sent in a plentiful supply of grapes which make a fine showing as some are still on exhibit. They are very decorative and catch the eyes of the visitor. The county display of hops is made in the Food Products Building and Mendocino makes a fine showing in conjunction with Sonoma county, the Sacramento Valley and Oregon. The awo Coast counties make by far the best exhibit. This county compares very favorably in its hop display with other places.

Just now there are a great many visitors from every part of the county and most of them are very highly pleased with the showing made by Mendocino. The exhibit is conducted on a business basis and the funds are sufficient to carry the booth to a very successful conclusion as the Exposition is to close on Dec. 4th. The appropriation of this county was much less than most counties, some of whom have spent all their money while Mendocino has funds to pay all bills promptly.

MENDOCINOITE DEAD IN CLOVERDALE FIRE

TWO MISSING AND FIVE INJURED —OPERA HOUSE DESTROYED DAMAGE, $40,000.

Three people were burned to death and five others burned and injured, and $40,000 damage was done to property in a fire which swept the business section of Cloverdale at daybreak Thursday morning.

Two others are said to be missing.

The blaze started from the explosion of a gasoline stove in the restaurant owned by Joel L. Swindel, who is also proprietor of the Cloverdale Hotel, and spread rapidly to the hotel, a long, low frame building built many years ago, and to the Humbert Opera House on the corner of West and First streets. The rapid sweep of the flames was aided by a high wind which made the work of the fire fighters difficult.

These who lost their lives in the fire were Mrs. Sarah Jane Harrison of Lodi, wife of George R. Harrison, and Charles Scott, who had just returned to Sonoma county from Ornbaun, Mendocino county.

Charles Scott, the other victim, had just returned from Mendocino county, where he had been working for Supervisor Rawles near Boonville. He had lost a leg in an accident and had been brought to Cloverdale for recovery. He had been put to bed at 10:30 o'clock the night before and was in a helpless condition, so that he had no chance to escape when the fire broke out.

THIRTEENTH OF MONTH IS LUCKY BIRTHDAY

The popular proprietor of the Palace Hotel, Frank Sandelin, has combatted very successfully for some years one of the prevailing superstitions and has found the thirteenth of October a very lucky day since it is his birthday. Hence on Thursday he was a genial host to a merry party of nine gentlemen at an elaborate banquet served at the Good Luck Restaurant. The banqueteers were:

Bob Hutchison, Clyde Brewer, Al Malpas, Fred Steiert, Clair Smith, Bunt Bucknell, James Archer, Frank Gibney and mine host, Frank Sandelin. Just think if the Boniface of the Palace had been born a day earlier he might have been named Columbus. There were congratulatory speeches after the bountiful menu had received adequate attention.

The guests united in singing the beautiful ballad: "There were forty-nine blue bottles hanging on the wall", in honor of the forty-ninth birthday of their host.

SUNDAY SCHOOLS TO ENTERTAIN HIGH SCHOOL PUPILS

Through Mannon & Mannon as attorneys, P. I. Lancaster has field suit of foreclosure against John Etchart et al. Action is brought to recover on a note dated at Willits, Aug. 22, 1911 for $250 and assigned to Lancaster by the bank. Plaintiff asks for $57 counsel fees.

CONFISCATING CARPENTER'S CASE ON COURT CALENDAR

Alexander Sundling, claiming to be a carpenter and giving Santa Rosa as his residence, is in the county jail on a larceny charge, which may have been caused by a too free indulgence in liquor. He went into the Gibson Hardware store Monday and bought tools costing more than seven dollars. Other articles were missed after Sundling left the store and Deputy Sheriff Ganter, after investigation, decided that the carpenter might be the guilty party. Sundling appeared to be intoxicated when arrested and was concealing an alarm clock and hammer under his coat. He promised to pay for the tools taken ard was released. After celebrating Discovery Day, the Santa Rosan was rearrested and will have to answer to the court.

R. L. HUTCHISON WILL CONTINUE FIRM'S BUSINESS

According to law, the entire stock of the firm of Hutchison & Roeder must be sold to settle the estate of the late Fred M. Roeder and the surviving partner, R. L. Hutchison, will sell the complete and up-to-date assortment of furniture, wall paper, floor coverings, school supplies and stationery at wholesale prices. This record-breaking sale will begin next Monday and the store fixtures will be sold at less than cost. Mr. Hutchison will continue the business, also undertaking, at the old location and desires to complete this sale at an early date in order to make room for a new stock of goods. The early buyers will have the best selection and there are marvelous reductions in all lines.

CITY TAXES ARE TWENTY CENTS LESS

REDWOOD BRIDGE FOR OAK ST. INSTEAD OF CONCRETE

The Board of Trustees convened Monday evening at the City Hall with all the trustees present. After a great deal of consideration the city tax rate was fixed at 90 cents on each $100 of assessed valuation, being 20 cents less than last year. The rate includes the following items: General fund, 30c; street fund, 30c; library fund, 10c; sewer bond, 12c; electric light bond, 8c; total 90c. The motion to adopt this rate was made by Trustee Smith and was carried without a dissenting vote.

Bids for constructing a bridge across Orr Creek on the line of Oak street were opened as follows: V. M. Price, concrete bridge, including grading the approaches, $2,500; W. B. Dickie, wooden bridge, $1098. It was claimed that the action at the last meeting by a three to two vote called for concrete structure and on the motion to accept Mr. Price's figure, Trustees Charlton and Carothers voted in the affirmative while Trustees Lambert, Brown and Smith were recorded in the negative, thus defeating the proposition.

There was some talk as to whether new bids would have to be asked for the redwood structure but City Attorney C. M. Mannon held that the law had been followed and that the postponement would not invalidate the advertising. Trustees Brown, Smith and Lambert voted for the motion to build a wooden bridge and Trustees Carothers and Charlton voted against the proposition. The City Attorney was directed to draw up the usual contract for Mr. Dickie to sign in accordance with the plans and specifications.

William Bromley, who has filled the office of City Electrician for nine years, sent in his resignation to take effect Nov. 1st and F. E. Anker and R. E. Lynch were placed in nomination to fill the vacancy. On calling the roll, Trustees Carothers and Charlton declared themselves for Lynch and the former was awarded the office. Mr. Bromley, in his letter of resignation, told of his pleasant relations with the various city boards, the growth of the department from very modest beginnings and of his regret in severing his connections with the municipal system.

City Attorney Mannon reported that the State Railroad Commission had fixed October 26th as the date of hearing as to telephone rates throughout the State and this city has been invited to present any complaint. Ukiah will not be represented at this hearing as no action was taken. The Board then adjourned.

COURT HOUSE ROOF WAS NEAR COLLAPSE

SUPERVISORS HAVING BRACES PUT IN TO SAVE ANCIENT STRUCTURE WAS IN DANGEROUS CONDITION

The central portion of the underpinning of the Court House roof has been found to be in a precarious condition and carpenters are now at work shoring up the timbers that are in danger and placing new timbers where they will keep a roof over the heads of the county officials during the coming winter. The discovery was made by accident, when some slight repairs were ordered made to the roof, and Engineer Orr who had been delegated to supervise the job by the Supervisors found that the roof timbers were in imminent danger of collapse at any time. Whether the tin roof would have been strong enough to hold itself up is a question.

The strengthening of the roof will be more of a contract than was anticipated at this time but it is thought that the weakness was discovered in the nick of time to prevent a disaster. The Court House is about forty years old and is still a substantial structure, good for another generation with some repairs.

DELEGATE TO GRAND LODGE OF MASONS

District Attorney Hale McCowen, Jr., is in San Francisco in attendance on the Masonic Grand lodge as delegate from Abell Lodge, No. 146, of Ukiah. Appellate Justice Albert G. Burnett, for many years Superior Judge of Sonoma county, was advanced from Deputy Grand Master to the Grand Orient, a worthy tribute to his activity in all Masonic word and work. The honor bestowed on Judge Burnett is very popular throughout all Northern California lodges.

LOW RATES TO FAIR ON LIVE STOCK DAY

The Northwestern Pacific Railroad has made a low excursion rate from Ukiah to San Francisco Oct. 22 and 23, limit of ten days, on account of the Live Stock Day at the Exposition. It is expected that there will be a big crowd and no farmer should miss this opportunity to examine the best products of farming implements and machinery. The round trip fare from Ukiah will be $4.75.

AUTO PARTY HAS A NARROW ESCAPE

Last Saturday evening Mr. and Mrs. Fugitt and daughter were going to their home in Talmage with Chas. Ciancio who was driving his car. They did not hear the up-train coming until within 20 feet of the railroad crossing and Mr. Ciancio had to turn the car sharply to avoid being struck by the train and hit a teegraph poe. All escaped except Mr. Fugitt who was slightly bruised while the machine was badly wrecked.

HEALDSBURG PLAYS A WINNING GAME

The return game of baseball Sunday afternoon between the Healdsburg nine and the Ukiah team brought out a large attendance of fans and fully 600 enthusiasts enjoyed a contest, which one-sided from the first inning and yet was filled with action. The crowd yelled its approval of the good plays without regard to which side was benefited and the game was remarkable for good playing by the two nines. Healdsburg played a no-error game and had the advantage in the twin-star battery, composed of Pitcher Smith and Catcher Smith—sort of Castor and Pollux. The final score was 6 to 0 in favor of the visitors.

OPERATION FOR APPENDICITIS

Harold Tuttle, step-son of Omar Bates, an official of the Round Valley Reservation, was stricken with appendicitis at his home near Covelo this week and was brought to this city. An operation was performed Wednesday afternoon at Malpas Sanitarium by Dr. S. L. Rea. At last accounts the young man is progressing as well as can be expected.

WHO WILL GAIN POSSESSION OF THE EARTH?

The great war which is now raging in Europe, naturally raises the question of the future mastery of that portion of the world. Should there be a decisive outcome to the struggle, the victorious power would be in a position to dictate terms to Europe; and from the mastery of Europe it would be but a step to the position of world supremacy.

There exists however an impassable barrier in the pathway to this coveted goal of power. The World of the Almighty has declared that there will never again be upon this earth a successor to imperial Rome. No conqueror will ever arise who will be able to bring the world to his feet. No nation will ever be able to bring all the other nations into subjection.

This is plainly stated in the prophecy of Daniel, chapter two, where, in explaining to the king of Babylon his dream concerning the great image, the prophet Daniel declared: "And whereas thou sawest the feet and toes, part of potter's clay and part of iron, the kingdom shall be divided;.....And whereas thous sawest iron mixed with miry clay, they shall mingle themselves with the seed of men: but they shall not cleave one to another, even as iron is not mixed with clay."

Since the decline and fall of the iron monarchy of Rome, there have been repeated efforts to weld together into one solid mass the broken fragments of that empire. Clovis, Charlemagne, Charles V, and Napoleon Bonaparte, essayed to become rulers of the world; but none of them could cement the iron and clay of the prophetic image. They were striving against the fiat of heaven. As one writer has forcibly expressed it: "The earth reeled under the fierce charges of these world-empire grasping warriors, but the Word of the Lord stood fast, and Europe remained divided."

Nor has the effort to bind the nations together into one by martial alliances been any more successful. The royal families have intermarried very extensively, but the ties thus formed have accomplished nothing toward political union. King George of England is cousin to the German Kaiser, and the Czar of Russia is a relative also. Yet this relationship does nothing to prevent war. In no instance has there been a cleaving together of the kingdoms through the marital "mingling" of which the prophet spoke.

Yet there is to be another and final universal kingdom, foreshadowed by the "stone" of this prophetic dream, which "smote the image upon his feet that were of iron and clay, and brake them to pieces." Dan. 2:34. For of this stone it was said by the prophet, that it "became a great mountain, and filled the whole earth"; and in the explanation of this portion of the dream the prophet said: "In the days of these kings shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms and it shall stand forever." Dan. 2:35,44.

We are living today at a time when all the events pointed out by inspired prophecy as marking the approach of that kingdom, are with but one or two exceptions, in the past. Almost the very last sign of its coming was stated by the Saviour in the words: "This gospel of the kingdom shall be preached in all the world for a witness unto all nations; and then shall the end come." Matt. 24:14. That this work has now almost been accomplished, every person knows who is acquainted with the extent of Christian missionary effort at the present time.

Very sincerely yours,
The Seventh-day Adventist Church.

Editor Republican-Press:—I hope I may have your hearty assistance in warning the people once more of the largest earthquake the world has ever known which is now staring you in the face. I have received many slurs over trying to do good for the people, but I am not grieved as I know that he who laughs last can laugh the strongest and I am proud to be counted worthy to transact business for God.

Yours very respectfully, J. H. Lilly.

SOME IMPROVEMENTS UKIAH WOULD LIKE

The Ukiah visitors to Willits on the occasion of the dedicatory ceremonies of the new Carnegie Library there could not fail to be impressed with the commodious new depot now under construction by the Northwestern Pacific Railroad. The thought must have been prominent also that it is high time that Ukiah has depot facilities more in keeping with the importance of the city as a distributing center. The grounds around the railroad station could be beautified at a slight expense and the present dilapidated depot buildings could be improved by a coat of paint. These are only suggestions, made in fear and trembling, but the move would be progressive and in keeping with the old principles of the line when it was known as the "Donahue Road."

Mrs. Ray Cox accompanied by her cousin, Miss Zora Spurlock of Covelo, will leave Saturday morning for San Francisco where they expect to visit friends and take in the Fair.

Frank Spurlock came up Wednesday noon where he had spent several days taking in the Exposition, and left that evening for his home in Covelo after a few hours' business visit here.

Wagon loads of grapes are being hauled into town from nearly all points this week and the crushing is on in full force. The harvest has been generally good with fair prices in many cases, although vineyardists have received more money for their crop. After the road war is over, prices should be better as all will want to drink to the health of their friends and neighbors.

Mendocino county has quality and quantity of agricultural land that is priced right; hence it naturally follows that the result of the Exposition will be to attract many new residents to this county, if we do not raise prices out of sight. HUTCHISON & ROEDER

By R. L. HUTCHISON, Surviving Partner:

LABOR LAWS ARE CRIPPLED BY CONGRESS

WASHINGTON, D. C., Oct. A blunder by the Democratic Congress has crippled one of its most important labor laws.

The last Congress passed a provision intended to prohibit the use in government plants under the War Department of certain customs opposed by labor organizations. That provision is practically inoperative today. A vital link in the chain of legislation was omitted.

The labor provision referred to was the center of one of the bitterest fights of the session. It was intended to prevent the use of army appropriations for "making time study of employees or to pay any premium, bonus or cash reward to any employee in addition to his regular wages," and was enacted as an amendment to the army appropriation bill.

The struggle over this amendment all but caused the failure of the army bill. First adopted by the House, it was rejected by the Senate after a long drawn out controversy. When the bill went back to the House, they refused to ratify the Senate's action.

The measure then went to a conference committee of the two branches. They tried in vain to harmonize the differences, with the labor amendment always the principal bone of contention. Scores of other disagreements were disposed of, but the Senate continued to oppose the labor clause and the House to support it. Three times conference committee reports were rejected because of the labor regulation alone.

Not until senators realized they must vote for it or defeat the entire appropriation did they give up. The passage of the army bill containing the labor regulation speedily followed.

On the same day Congress passed an act authorizing the War Department to expend more than six million dollars for fortifications and other defenses. To make the labor clause effective, it was as essential to the fortifications bill as to the army bill.

THERE IS NOT ONE LINE OR WORD OF THE LABOR REGULATION IN THE FORTIFICATIONS ACT. It was not proposed as a part of this law in either House or Senate, although to include it in the army act and not in the fortifications law was a mere farce. The days and weeks of fierce conflict that had worn the strength and tempers of the contestants to shreds proved to be a sham battle.

This is not an isolated blunder. It is but one of hundreds that have been woven into the entire fabric of Democratic legislation.--another evidence of Democratic incompetency and inefficiency.

Mrs. Rose, mother of Mrs. George Lambert, is improving after a long and serious illness.

LEGISLATURE MAY CONVENE IN JANUARY

PROGRESSIVE LEADERS ARE CONVINCED EXTRA SESSION WILL BE CALLED TO RATIFY AMENDMENTS

SACRAMENTO, Oct. 14. It is accepted in state circles that a special session of the legislature will be called during January to ratify a number of constitutional amendments that it is generally conceded will be carried by the electors at the special election of October 26. It is believed that all of the nine constitutional amendments presented will carry, for the reason that there is an organized campaign promoting their passage, and no opposition.

The state tax commission is working hard in the effort to have enough data available to make a showing before a special session of the legislature if Senator Newton Thompson's senate constitutional amendment No. 38 is adopted. It revises the state tax and revenue system, and if adopted will mean the abolition of the state board of equalization. This is the only amendment that has any opposition.

The members of the tax commission and Progressive leaders, however, believe that it will carry, and that the tax commission will be given an opportunity to present to the legislature the data it has recently gathered. The rural credits amendment, 12-year judges, state deposits, taxation of church property and several others of importance, if accepted by the electors, will be suggested for immediate action on the part of the legislature, without waiting for January, 1917, when the legislature meets again in regular session.

If non-partisanship carries the legislature will undoubtedly be assembled in January to ratify and put into motion the wheels of the new election machinery, which is now almost in a state of chaos because of the fact that only two of the new primary measures are included in the referendum petition, while others are in full force and effect, and do not work harmoniously with the old direct primary law, which the non-partisan measure sought to repeal, but is still the law of the state.

SOUTH METHODIST CONFERENCE

Jones, pastor of the Methodist Episcopal Church, South, left Wednesday morning for San Francisco to attend the annual conference to be held in a church of this denomination convenient to the Exposition grounds. NEW DRESS FOR THE LOCAL BAPTIST CHURCH

The Baptist Church is resplendent in its smart new dress and the building looms much larger since it was painted white with pearl gray trimmings. Two coats have been applied and will assist in preserving this historic edifice for posterity. Pastor Catchpole has given the work his personal supervision and ere long the church will stand forth as one of the handsomest structures in northern California. Churches are the "beacon lights" of modern progress and should be made attractive without and within. The interior of the local church is planned with a view of utilizing every foot of space in the commodious edifice.

A GOOD BREAKFAST

Puts You in Trim for the Day's Work

In the morning, when the vitality of the human body is at the lowest, it is self-evident that nothing but light, easily-digested food should be eaten.

The food that seems to best meet these requirements is whole wheat. It is strengthening and sustaining, makes rich, red blood, and fills you full of vim and energy.

Made from whole wheat, scientifically cooked and blended with barley malt is that famous breakfast food known as "FORCE."

For a delicious breakfast dish that requires no time to prepare, try a combination of "Force" and Fruit. Slice a banana into a dish of "Force" and cream—then sprinkle with powdered sugar; or squeeze the juice of an orange on the "Force" and dispense with the cream; or served with berries, sugar and cream, "Force" is simply delicious.

For the sake of your family's health, give "FORCE" a few week's trial, and watch the results. It can be obtained at all good grocers. Ask for the little "Force" folder which contains many valuable receipts for using "FORCE."
